JustFund

Estate Funding

Support when you need it most.

We help make estate administration easier by providing access to funds when they're needed - so you can focus on what matters.

What is Estate Funding?

Estate Funding gives you access to money from an estate before it is finalised.

This can help cover important costs or provide early access to your inheritance - without needing to wait for the full probate process to be completed.

- **No upfront or monthly payments**
- **Repayment occurs after the estate is finalised and funds are disbursed**

How can it help?

Cover immediate expenses

Funeral costs, legal fees, home maintenance, debts and other urgent payments.

Access funds earlier

Avoid waiting months (or longer) for distribution.

Reduce financial stress

Get the support you need during a difficult time.

Who is this for?

Executors

Manage complex responsibilities with confidence. Settle debts, protect estate value and act fairly for all beneficiaries without the pressure of immediate out-of-pocket costs.

Beneficiaries

Access your inheritance early without waiting for lengthy probate or property sale processes to be finalised.

How it works

1. **APPLY** — The executor, their lawyer or a beneficiary completes a simple application form and provides supporting material.
2. **ASSESS** — After receiving the required information, we assess the estate's solvency and provide a response within a few business days.
3. **FUND** — The contract is provided for signature and approved funds are advanced as required.
4. **REPAY** — The loan is repaid upon distribution of the estate's assets.

Why JustFund?

- Trusted by law firms across Australia & New Zealand
- Fast and straightforward process
- Supportive and understanding team
- Designed to help during challenging times

Supporting New Zealand families

We work alongside legal professionals across New Zealand to provide practical funding solutions that help families move forward with confidence.

Funding for a better tomorrow.
